Appendix Fig S2	3
Appendix Fig S3	4
Appendix Table S1	5

**Appendix Fig S1** qRT-PCR analysis of shRNA-resistant LINC00115 wild type or mutant with or without miR-200b overexpression in 1123/shL115 and 528/shL115 GSCs. Data are representative of three independent experiments. Error bars,  $\pm$  SD. \*\*,  $p < 0.01$ , by One-way ANOVA.

**Appendix Fig S2** Corresponding to Figures 4G. Immunofluorescence (IF) analysis of protein expression of ZEB1, vimentin, and E-cadherin in tumors from Figures 4G. Images are representative of two independent experiments. Scale bars: 50  $\mu$ m.

**Appendix Fig S3** Representative images of a RNAscope control with *LINC00115* sense and a IHC control with IgG in a paraffin-embedded clinical GBM samples. Images are representative of two independent experiments. Scale bar, 50  $\mu$ m.

**Appendix Table S1** Primers for DNA constructs and qRT-PCR
