

Supplementary Data

SUPPLEMENTARY FIG. S1. Transcription profiles of IsTRP from gravid adult, adult, activated protoscolex, protoscolex, and vesicles of *Echinococcus multilocularis*. Transcriptome analysis was performed by the Parasite Genomics platform in the Wellcome Trust Sanger Institute. The data are presented as reads per kilobase per million mapped reads (RPKM). IsTRP, iron-sulfur thioredoxin-related protein.
