Robust standard errors in parentheses clustered at the country level. \*\*\* p<0.01, \*\* p<0.05, \* p<0.1. Main data source: World Development Indicators and Gavi's own disbursement portfolio . Sample period: 1995–2016. All regressions include PPP-adjusted GDP per capita (in log), population (in log). Gavi disbursements expressed in real US\$ million. System support refers to the sum of Health system and immunisation strengthening (HSS), Injection safety support (INS), and (Immunisation services support). Vaccine support disbursements refer to New and underused vaccine support (NVS).
