

Reasons for excluding submissions

Duplicates and excluded submissions based on discussion from Friday 8th March Steering Group meeting

Below is a list of excluded submissions based on discussion at the SG meeting.

(Red -> Reasons for exclusion)

Exclusion Criteria

- Duplicate
- Non-Intervention
- Not uncertainties
- Pre-pregnancy
- Post-discharge from hospital or long-term health condition
- Staffing Issues?

Pre-pregnancy Education

ID number	Original submissions	No. of submissions	ID numbers
1860238343	Are we getting any better at informing our young people about the causes of premature birth as a preventative measure. PRE-PREGNANCY	Health care professional (3)	

Treatment with Medications

ID number	Original submissions	No. of submissions	ID numbers
1849744543/1c	The effects of any illicit substance/ medication ie diazepam, on the foetus and length of withdrawal period thereafter NOT UNCERTAINTIES	HCP (1)	Not uncertainties
1837904252b	psychiatric drug affect on in utero babies that are born premature. NOT UNCERTAINTIES	Service user (1)	Not uncertainties
1850073716/d	how aspirin can work in pregnancy for those at risk etc NOT UNCERTAINTIES	Service user(1)	Not uncertainties

1849744543/1b	The effects of 'excessive' maternal caffeine intake on the infant in utero/ in breast milk NOT UNCERTAINTIES	Health care professional(1)	Not uncertainties
---------------	--	-----------------------------	--------------------------

Education during pregnancy

ID number	Original submissions	No. of submissions
1811391066/2	I also feel woman need to be given more information about (if it is possible) how to help prevent premature labour/ birth. PRE-PREGNANCY	Service user (1)

Other antenatal interventions

ID number	Original submissions	No. of submissions
1828052501/d	Are there non-invasive ways that could replace current invasive testing for some conditions? NOT DIRECTLY RELATED TO PRETERM BIRTH	Health care professional (1)
1845609676	Platelets levels: safe level for physiotherapy interventions INTERVENTION POST-DELIVERY	Health care professional (1)
1829354898/a	Can preterm birth be delayed in any medical way? TOO BROAD	Service user (1)

Thermal care (keeping babies at the right temperature)

ID number	Original submissions	No. of submissions	ID numbers
1823560296/5	Does it matter if babies are allowed to get cold at delivery? Duplicate, already answered	Both (1)	<i>There is one other submission on this</i>

Effective Communication/Support to parents

ID number	Original submissions	No. of submissions	Additional ID numbers
1951091908/2	How to consider the needs of all the family during preterm DUPLICATE	1860226617/3	See original document, a lot of submissions for this
1813978902/2	Couselling/Reassurance provided – feedback of this service DUPLICATE		
	Family support DUPLICATE (in a number of sections)		

Other perinatal interventions

ID number	Original submissions	No. of submissions
-----------	----------------------	--------------------

1838009156/c	What makes a difference perinatally that will reduce the prevalence of subsequent disability or minimise the impact of potentially disabling conditions? Too broad to be included	Health care professional(1)
--------------	---	-----------------------------

Other interventions after discharge

ID number	Original submissions	No. of submissions	Additional ID numbers
1829443632	Access to services in the community for preterm babies? POST-DISCHARGE (combine the following three items to 'what is the best way to look after babies and families after discharge?')	Both (1)	
1813978902/2	More home treatment to be available POST-DISCHARGE	care at home (1)	
1811160846b	Family support after discharge incl access to services in the community POST-DISCHARGE	Service user (2), both (1)	
P024	What can mothers do for PTB as they are growing up to improve development? POST-DISCHARGE (combine the following four items)	Service User (1)
