

Supplementary
Figure 7

Supplementary Figure 7: Effect of auristatin antibody drug conjugates in combination with IR on mouse body weight. Individual mouse body weights were normalized to each mouse's weight on initiation of treatment, Day 0. **A)** Mice from experiment in Fig 5B. **B)** Mice from experiment in Fig 5D. **C)** Mice from experiment in Fig 5G and Supplementary Fig 6. Data is plotted as mean fractional body weight \pm SEM.
