

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: qPCR Primer sequences.

File name: Supplementary Data 2

Description: Ribosome protected fragment from Control and FKO mice.

File name: Supplementary Data 3

Description: The gene expression of HuR targets

File name: Supplementary Data 4

Description: HuR immunoprecipitation followed by RNA sequencing.

File name: Supplementary Data 5

Description: AU-rich elements (ARE) presentation in HuR targets.

File name: Supplementary Data 6

Description: Oligos for cloning.
