

Reviewer Report

Title: A high-quality chromosomal genome assembly of *Diospyros oleifera*

Version: Revision 2 **Date:** 12/5/2019

Reviewer name: Manuel Spannagl

Reviewer Comments to Author:

Most of my concerns have been addressed, although I believe the authors could have worked out some more biological novelty. As the manuscript stands, it is still mostly a description of newly generated genomic resources.

These resources will have some value though, and will hopefully facilitate some more in-depth analyses in the future.
