Appendix 1: Categorization of the reviewed studies

As supplementary data, we include a tab-delimited file (“review_democracy_biodiversity.txt”) with each paper as a row, and the topics of interest as columns. In a few cases, some studies are represented on multiple rows as they analyse several biodiversity proxies. There are 58 studies in total with the following 22 variables:

- Reference; Year
- Democracy_measure; Democracy_measure_long
- Averaging; Years_averaged_over
- Democracy_source; Democracy_source_full
- Biodiversity_measure; Biodiversity_measure_full
- Biodiversity_source; Biodiversity_source_full
- Spatial_scale
- Time_start; Time_end; Time_full
- Prediction_effect
- Overall_concluded_impact_of_democracy_on_biodiversity
- Direction_of_the_effect_full
- Stable_link, Comment, Manually_added.
