

**Supplementary Table 1.** List of reported components included in the LC-MS method.

---

<b>Analyte</b>
L-methionine sulfoxide
Tyrosine variant
Taurine
Pyridoxamine
Pyridoxal
Cyanocobalamin
Riboflavin
5-hydroxyl- L-tryptophan
3-amino-propionamide

---

**Supplementary Table 2.** PQ data of the conducted fed-batch processes for cell line A.

Sample ID	Aggregates/Fragments			Charge Variants				Glycosylation pattern
