

**Table S1. Baseline characteristics by antibiotic use at ages 20-39 – Nurses' Health Study I**

|                            | No use<br>(n = 7,029) | Less than 2 months<br>(n = 35,679) | 2 months or more<br>(n = 3,628) |
|----------------------------|-----------------------|------------------------------------|---------------------------------|
| Age, years*                | 72.0 (6.8)            | 68.2 (6.6)                         | 66.0 (6.2)                      |
| BMI, kg/m <sup>2</sup>     | 26.2 (5.0)            | 26.6 (5.3)                         | 27.0 (5.7)                      |
| History of hypertension, % | 54.6                  | 56.8                               | 60.5                            |
| Thiazide diuretic use, %   | 15.6                  | 18.5                               | 20.9                            |
| History of diabetes, %     | 8.8                   | 9.8                                | 11.4                            |
| Total fluid intake, mL     | 1,701 (700)           | 1,754 (690)                        | 1,838 (706)                     |
| Alcohol, g                 | 6.0 (10.4)            | 6.3 (10.8)                         | 5.7 (10.9)                      |
| Dietary calcium, mg        | 869 (334)             | 857 (318)                          | 864 (321)                       |
| Supplemental calcium, mg   | 600 (519)             | 637 (525)                          | 696 (551)                       |
| Animal protein, g          | 45.2 (14.3)           | 46.4 (13.5)                        | 47.0 (13.9)                     |
| Potassium, mg              | 3,090 (614)           | 3,078 (589)                        | 3,087 (603)                     |
| Sodium, mg                 | 1,966 (433)           | 2,001 (428)                        | 2,002 (414)                     |
| Oxalate, mg                | 176 (104)             | 174 (99)                           | 175 (96)                        |
| Magnesium, mg              | 368 (121)             | 374 (123)                          | 391 (138)                       |
| Vitamin D, IU              | 562 (347)             | 572 (334)                          | 587 (343)                       |
| Vitamin C, mg              | 347 (366)             | 376 (400)                          | 424 (421)                       |
| Sucrose, g                 | 38.5 (16.2)           | 37.8 (15.6)                        | 37.8 (15.9)                     |

BMI, body mass index. Values are means (SD) or percentages and are standardized to the age distribution of the study population. \* Value is not age adjusted

**Table S2. Baseline characteristics by antibiotic use at ages 20-39 – Nurses' Health Study II**

|                            | No use<br>(n = 6,631) | Less than 2 months<br>(n = 51,795) | 2 months or more<br>(n = 7,562) |
|----------------------------|-----------------------|------------------------------------|---------------------------------|
| Age, years*                | 48.6 (5.2)            | 50.5 (4.6)                         | 50.4 (4.2)                      |
