We modified the HEDIS definition: we used a rolling year, rather than calendar year, and we did not exclude people with other lung comorbidities (COPD, etc.). People with comorbid conditions are excluded from HEDIS cohorts because they are complicated, so may not be appropriate for inclusion in the denominator for HEDIS quality measures. For the purposes of this study, we elected to include them in order to describe the full use of asthma biologics in the population studied.

Table E1

Drug	Code(s)	Code Type
Benralizumab	C9466	HCPCS
Dupilumab	00024591801, 00024591401	NDC
Mepolizumab	C9473, J2182	HCPCS
Omalizumab	J2357, C9217, S0107	HCPCS
Reslizumab	C9481, J2786	HCPCS
