Supplemental Table 1. Sensitivity analysis of violence exposure and theory of mind associations, adjusting for poverty and emotional neglect

	Cognitive theory of mind		Affective theory of mind	
	Accuracy	Reaction time (ms)	Accuracy	Reaction time (ms)
	F	F	F	F
Adjusting for poverty [a]				
Physical or sexual abuse	5.31*	0.05	3.60	2.85
Emotional abuse	4.82*	0.01	8.45**	3.03
Domestic violence	1.59	0.65	0.09	0.03
	β	β	β	β
Violence frequency	-.23**	0.06	-0.20**	0.11
Adjusting for emotional neglect [b]				
Physical or sexual abuse	3.08	0.03	1.55	2.91
Emotional abuse	3.78*	0.17	9.75**	3.88*
Domestic violence	1.21	0.17	0.04	0.01
	β	β	β	β
Violence frequency	-.22**	0.03	-0.21**	0.13

[a] Linear regressions controlling for age, sex and poverty
[b] Linear regressions controlling for age, sex and emotional neglect
**$p \leq 0.01$
*$p \leq 0.05$

Supplemental Table 2. Age x violence and theory of mind [a] [b]

	Cognitive Theory of Mind		Affective Theory of Mind	
	Accuracy β	Reaction Time β	Accuracy β	Reaction Time β
Age x Violence				
Physical or Sexual Abuse	0.13	0.04	0.11	-0.03
Emotional Abuse	-0.02	0.09	0.04	0.06
Domestic Violence	-0.93	0.09	-0.06	0.05
Violence Frequency	-0.04	0.06	-0.59	-0.01

[a] Values represent interaction of age and violence exposure variables
[b] Linear regressions controlling for sex
**$p \leq 0.01$
*$p \leq 0.05$

Supplemental Table 3. Age x cognitive and affective theory of mind task performance and externalizing problems [a]

| | Highest CBCL or YSR T-Score[b] | KSADS Current Diagnosis[c] | |
| | Externalizing | Conduct Disorder | Oppositional Defiant Disorder |
	β	OR	OR
Age x Cognitive theory of mind			
Accuracy	-0.39	0.01	0.21
Reaction time (ms)	0.10	1.00	1.00
Age x Affective theory of mind			
Accuracy	0.01	0.34	0.32
Reaction time (ms)	-0.04	1.00	0.76

[a] Values represent interaction of age and theory of mind variables
[b] Linear regressions controlling for sex
[c] Logistic regressions controlling for sex
**$p \leq 0.01$
*$p \leq 0.05$
