**Table 2.** Bee species collected on *C. nutans*.

<b>Family</b>	<b>Morphotype</b>	<b>Species</b>	<b>Count</b>
Halictidae	Green Sweat Bee	<i>Agapostemon virescens</i>	7
Andrenidae	Large Dark Bee	<i>Andrena crataegi</i>	1
Andrenidae	Large Dark Bee	<i>Andrena nuda</i>	1
Andrenidae	Large Dark Bee	<i>Andrena perplexa</i>	1
Apidae	Honeybee	<i>Apis mellifera</i>	11
Halictidae	Green Sweat Bee	<i>Augochlorella aurata</i>	1
Apidae	Bumblebee	<i>Bombus bimaculatus</i>	132
Apidae	Bumblebee	<i>Bombus griseocollis</i>	5
Apidae	Bumblebee	<i>Bombus impatiens</i>	8
Apidae	Bumblebee	<i>Bombus perplexus</i>	19
Apidae	Bumblebee	<i>Bombus terricola</i>	1
Apidae	Bumblebee	<i>Bombus vagans</i>	5
Apidae	Small Dark Bee	<i>Ceratina calcarata</i>	1
Apidae	Small Dark Bee	<i>Ceratina sp.</i>	1
Halictidae	Small Dark Bee	<i>Halictus confusus</i>	1
Halictidae	Small Dark Bee	<i>Halictus ligatus</i>	28
Halictidae	Small Dark Bee	<i>Halictus rubicundus</i>	2
Halictidae	Small Dark Bee	<i>Lasioglossum hitchensi</i>	5
Halictidae	Small Dark Bee	<i>Lasioglossum leucozonium</i>	2
Halictidae	Small Dark Bee	<i>Lasioglossum oceanicum</i>	1
Halictidae	Small Dark Bee	<i>Lasioglossum paradmirandum</i>	4
Halictidae	Small Dark Bee	<i>Lasioglossum pectorale</i>	2
Halictidae	Small Dark Bee	<i>Lasioglossum trigeminum</i>	1
Halictidae	Small Dark Bee	<i>Lasioglossum versatum</i>	4
	Dark Hairy Belly		
Megachilidae	Bee	<i>Megachile pugnata</i>	2
	Dark Hairy Belly		
Megachilidae	Bee	<i>Megachile relativa</i>	1
	Dark Hairy Belly		
Megachilidae	Bee	<i>Megachile rotundata</i>	1
Apidae	Hairy Leg Bee	<i>Melissodes desponsa</i>	23
	Large Carpenter		
Apidae	Bee	<i>Xylocopa virginica</i>	3

**Figure 1.** Treemaps showing the relative abundances of different morphotypes in observed flower-visiting insects (A) and the species of collected bees (B), as well as a comparison of the observed counts of bee morphotypes in collections and observations (C) with the expected counts if there were no difference between observations and collections (D). Colours refer to the order or family of the insects.
