The health status of transgender and gender nonbinary adults in the United States

Ethan C. Cicero[1*], Sari L. Reisner[2-5], Elizabeth I. Merwin[6, 7, #a], Janice C. Humphreys[6], Susan G. Silva[6,8]

S2 Table. Final Multivariable Model Results: Significant Study Group Interaction for Fair/Poor Health Outcome.

Health status outcome		Uninsured		Insured	
	SG	Mean	SEM	Mean	SEM
Fair/poor health	TW	0.07	0.04	0.23	0.03
	TM	0.34	0.09	0.18	0.03
	GNB	0.23	0.11	0.31	0.04

Least squares means and SEM for estimated probabilities, adjusted for covariates in final multivariate model. GNB: gender nonbinary adults; TM: transgender men; TW: transgender women; SEM: standard error of the mean; SG: study group.
