

Supplementary Table 1. Patient-reported exercise, physical activity, and sedentary time and accelerometer-measured objective measures*

Variable	n	Mean ± standard deviation, minutes
Patient-reported aerobic exercise	42	126 ± 83
Patient-reported strengthening exercise	42	39 ± 33
Accelerometer-measured MVPA	44	158.7 ± 146.7
Accelerometer-measured LPA	44	923.7 ± 294.5
Accelerometer-measured SA	44	4462.9 ± 620.2

Abbreviations: MVPA, moderate-to-vigorous physical activity; LPA, light physical activity; SA, sedentary activity.
