Title: Introgression of Eastern Chinese and Southern Chinese haplotypes contributes to the improvement of fertility and immunity in European modern pigs

Version: Revision 2 **Date: 12/6/2019**

Reviewer name: Mirte Bosse

Reviewer Comments to Author:

I am happy to see that the authors refined their analyses on the AHR locus, and that we now have a similar view on the origin of the introgressed haplotype.

The analyses are properly described and I have no further comments except a minor detail:

Fig. 5. Human-mediate introgression at the AHR locus should be "human mediated"
