

PDB (10^{-6} M) stimulated superoxide

SUPPLEMENTARY FIG. S2. MitoTEMPO has no effect on NOX2 oxidase activity in isolated macrophages. The NOX2 oxidative burst was measured by L-012-enhanced chemiluminescence in the macrophage cell line RAW 264.7 cells pretreated with MitoTEMPO (5 mM) for 1 h. RLU/s are represented as mean \pm SEM of $n=9$ experiments. RLU, relative light units; SEM, standard error of the mean.
