

S2 Table. Grading scale for reactive fibrosis and replacement fibrosis.

Grading scale for fibrosis

Reactive Fibrosis

0=Negative

1=Perivascular

2=Perivascular with extension to interstitium

a. focal

b. diffuse

3=Encircling of individual myocytes

a. without perivascular fibrosis

b. with perivascular fibrosis

Replacement Fibrosis

0=Negative

1=Minimal foci

2=Occasional foci and small scars

3=Extensive scarring
