

# THE LANCET

## Supplementary appendix

This appendix formed part of the original submission and has been peer reviewed. We post it as supplied by the authors.

Supplement to: Ghinai I, McPherson TD, Hunter JC, et al. First known person-to-person transmission of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) in the USA. *Lancet* 2020; published online March 12. [http://dx.doi.org/10.1016/S0140-6736\(20\)30607-3](http://dx.doi.org/10.1016/S0140-6736(20)30607-3).

## Supplementary Material

### Illinois COVID-19 Investigation Team

First Name	Last Name/Degree	Affiliation
Sarah	Brister MPH	Illinois Department of Public Health
Kristin	Goldesberry MPH	Illinois Department of Public Health
Stacey	Hoferka MPH	Illinois Department of Public Health
Dejan	Jovanov BS	Illinois Department of Public Health
Dawn	Nims MPH	Illinois Department of Public Health
Lori	Saathoff-Huber MPH	Illinois Department of Public Health
Chantel	Hoskin Snelling MPH	Illinois Department of Public Health
Hira	Adil MBBS	Chicago Department of Public Health
Raabiah	Ali MPH	Chicago Department of Public Health
Elaina	Andreychak MPH	Chicago Department of Public Health
Kelley	Bemis MPH	Cook County Department of Public Health
Mabel	Frias MPH	Cook County Department of Public Health
Pearl	Quartey-Kumapley MD	Cook County Health
Kristin	Baskerville MPH	DuPage County Health Department
Elizabeth	Murphy MPH	DuPage County Health Department
Emily	Murskyj MPH	DuPage County Health Department
Zach	Noffsinger MPH	DuPage County Health Department
Janice	Vercillo BSN	DuPage County Health Department
Apryll	Elliott Med	Kane County Health Department
Uche S.	Onwuta MS MPH	Kane County Health Department
Danielle	Burck BSN	McHenry County Health Department
Glen	Abedi MPH	U.S. Centers for Disease Control and Prevention
Rachel M.	Burke PhD	U.S. Centers for Disease Control and Prevention

Ryan	Fagan MD	U.S. Centers for Disease Control and Prevention
Jennifer	Farrar MPH	U.S. Centers for Disease Control and Prevention
Alicia M.	Fry MD	U.S. Centers for Disease Control and Prevention
Aron J.	Hall DVM	U.S. Centers for Disease Control and Prevention
Amber	Haynes MPH	U.S. Centers for Disease Control and Prevention
Connor	Hoff MPH	U.S. Centers for Disease Control and Prevention
Shifaq	Kamili BS	U.S. Centers for Disease Control and Prevention
Marie E.	Killerby VetMB	U.S. Centers for Disease Control and Prevention
Lindsay	Kim MD	U.S. Centers for Disease Control and Prevention
Stephanie A.	Kujawski PhD	U.S. Centers for Disease Control and Prevention
David T.	Kuhar MD	U.S. Centers for Disease Control and Prevention
Brian	Lynch BS	U.S. Centers for Disease Control and Prevention
Lakshmi	Malapati PGDCA	U.S. Centers for Disease Control and Prevention
Mariel	Marlow PhD	U.S. Centers for Disease Control and Prevention
Janná R.	Murray MPH	U.S. Centers for Disease Control and Prevention
Brian	Rha MD	U.S. Centers for Disease Control and Prevention
Senthil Kumar K.	Sakthivel PhD	U.S. Centers for Disease Control and Prevention
Sarah E.	Smith-Jeffcoat MPH	U.S. Centers for Disease Control and Prevention
Elizabeth	Soda MD	U.S. Centers for Disease Control and Prevention
Lijuan	Wang PhD	U.S. Centers for Disease Control and Prevention
Brett L.	Whitaker MS	U.S. Centers for Disease Control and Prevention
Timothy M.	Uyeki MD	U.S. Centers for Disease Control and Prevention

**Supplemental Table 1: Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) Real-Time Reverse Transcription-Polymerase Chain Reaction Testing Results for Illinois Patient 1, by Day of Investigation and Specimen Type.\***

Day of Investigation	7	9	11	13	14	17	20	23	28	30	31
Nasopharyngeal swab	Positive (Ct, 37–39)	Negative	Negative	Negative	Negative	Negative	Negative	Negative	-	-	--
Oropharyngeal swab	Positive (Ct, 35–38)	Negative	Positive (Ct, 27–28)	Negative	Negative	Negative	Negative	Negative	-	-	-
Sputum	Positive (Ct, 24–25)	Positive (Ct, 23–25)	Positive (Ct, 30–31)	Positive (Ct, 27–29)	Positive (Ct, 29–31)	Positive (Ct, 32–33)	Negative	Negative	Positive (Ct, 35–38)	Negative	Negative
Serum	Negative	Negative	Negative	Negative	Negative	Negative	Negative	Negative	-	-	-
Urine	Negative	Negative	Negative	Negative	Negative	-	Negative	Negative	-	-	-
Stool	-	Positive (Ct, 31–34)	Positive (Ct, 33–36)	Positive (Ct, 35–38)	Positive (Ct, 36–42)	Negative	Inconclusive	Negative	Negative	-	-

\* Lower cycle threshold (Ct) values indicate higher viral loads.

**Supplemental Table 2: Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) Real-Time Reverse Transcription-Polymerase Chain Reaction Testing Results for Illinois Patient 2, by Day of Investigation and Specimen Type.\***

Day of Investigation	11	13	14	16	18	20	22	28	30	31
Nasopharyngeal swab	Positive (Ct, 37–38)	Positive (Ct, 36-39)	Inconclusive	Negative	Negative	Negative	Negative	-	-	-
Oropharyngeal swab	Positive (Ct, 33–34)	Positive (Ct, 38-40)	Negative	Negative	Negative	Negative	Negative	-	-	-
Sputum	-	-	Positive (31–33)	Positive (Ct, 30–31)	Positive (Ct, 34–36)	Inconclusive	Inconclusive	Negative	Negative	Negative
Serum	Negative	-	Negative	Negative	Negative	Negative	Negative	-	-	-
Urine	-	-	Negative	Negative	Negative	Negative	Negative	-	-	-
Stool	-	-	-	Negative	Negative	-	Negative	Negative	-	-

\* Lower cycle threshold (Ct) values indicate higher viral loads
