

CT Appearances

Classical ARDS*	Y/N
Patchy GGO/consolidation – no zonal predilection	Y/N
Patchy GGO/consolidation – peripheral	Y/N
Crazy-paving pattern	Y/N
Cavitation	Y/N
Visual estimate of Extent of abnormal lung overall	<50% / 50-70% / >70%
Signs of fibrosis?	
Varicose, non-tapering airways	Y/N
Parenchymal distortion	Y/N

Serial change in CT appearance (if applicable)

Stable	Y/N
Marginal improvement	Y/N
Marginal progression	Y/N
Significant progression	Y/N
Other	

Lines and Tubes

All satisfactory	Y/N
Misplaced ETT (too high or low, in RMB or LMB)	
Misplaced NGT	Y/N
Misplaced IJV line	Y/N
Other	

Ancillary findings

None	
Pneumothorax	Rt / Lt
Lobar collapse	RUL, RML, RLL, LUL/lingula, LLL
Pleural effusion Rt	Small / moderate / large
Pleural effusion Lt	Small / moderate / large
Moderate/severe emphysema	y/n
Moderate/severe coronary artery calcification	y/n
Moderate/severe aortic valve calcification	y/n

Other

*Roughly symmetrical airspace opacification, increasing density from ventral to dorsal lung
