

THE LANCET

Supplementary appendix

This appendix formed part of the original submission and has been peer reviewed. We post it as supplied by the authors.

Supplement to: Liu P, Guo Y, Qian X, et al. China's distinctive engagement in global health. *Lancet* 2014; **384**: 793–804.

Web appendix: Data sources

To support the arguments in this article, we collected data from 529 distinct sources, including 425 pieces from various websites, 70 pieces from statistical yearbooks, 23 pieces from annual or seasonal reports and 15 pieces from newspapers or personal interviews. The data sources are from 15 central government departments, including 227 from the Ministry of Commerce of the People's Republic of China (PRC), 35 pieces from the National Health and Family Planning Commission of the PRC, 15 pieces from the Ministry of Education of the PRC, 10 pieces from China Customs etc. Both the English and the Chinese sources are covered in the paper, including 24 English sources and 505 Chinese sources. Detailed information is shown below:
