

Fig. S6

Differential expression
across cell states,
compared with MB

Effect of KD within cell state
Differential expression
between KD and Ctrl

High at G0,
Low at R2

Highly upregulated
in KD in G0,
slightly in R2, not
in MB

High at MB,
Low at R2
Low at G0

Slightly upregu-
lated in KD at R2 and
G0, no shift in MB

Low at MB,
High at R2
High at G0

Slightly upregulated
in KD at all 3 cell
Downregulated in KD
at all 3 cell states

Slightly downregulated
in KD at R2 and G0, no
shift in MB

Highly upregulated in
KD at R2 and G0, no
shift in MB

Highly upregulated in
KD at G0, downregulat-
ed in KD at R2, no shift
in MB
