

SUPPLEMENTAL TABLES

Supplemental Table S1. Overview of RNA libraries used in this work. Table provided as a separate file.

Supplemental Table S2. Genomic location of EVEs identified in the *A. aegypti* genome (AaegL5). Table provided as a separate file.

Supplemental Table S3. Genomic location of EVEs identified in the *A. aegypti* genome (AaegL3). Table provided as a separate file.

Supplemental Table S4. Genomic location of piRNA clusters identified in the *A. aegypti* genome (AaegL5). Table provided as a separate file.

Supplemental Table S5. Exogenous viruses potentially targeted by EVE-derived piRNAs derived from the *flamenco-like locus*. Table provided as a separate file.
