

Review finding									
Text of review finding					Overall CERQual assessment	Explanation of assessment		Contributing studies	

CERQual assessment - components									
Methodological limitations		Coherence		Relevance		Adequacy			

Characteristics of studies contributing to the review finding									
Author and year	Country	Region	Country income level	Perspective	Type of companion	Population of women	Type of study	Care model	Sample Size

Methodological assessment of contributing studies										
Author and year	Was there a statement of the aims of the research?	Given the aim, was a qualitative methodology appropriate?	Was the research design appropriate to address the aim?	Was the recruitment strategy appropriate to the aims of the research?	Was the relationship between the researcher and participants adequately considered?	Have ethical issues been taken into consideration?	Was the data analysis sufficiently rigorous?	Were the findings supported by the evidence?	How valuable is the research?	Overall assessment of methodological limitations

Adequacy									
#	RefID	Author and date	Author theme		Author interpretation		Participant quotation
