

Title: Supplementary Data 1.

Description: GWAS meta-analysis association loci for WMH.

Title: Supplementary Data 2.

Description: GWAS association results for FA.

Title: Supplementary Data 3.

Description: GWAS association results for MD.

Title: Supplementary Data 4.

Description: Genetic correlation results for WMH, FA and MD.

Title: Supplementary Data 5.

Description: Significant genetic correlations with and without stroke cases from the third GWAS study.

Title: Supplementary Data 6.

Description: HyprColoc results.

Title: Supplementary Data 7.

Description: PhenoScanner annotations.

Title: Supplementary Data 8.

Description: TWAS associations results for WMH, FA and MD.

Title: Supplementary Data 9.

Description: UK Biobank field codes to derive output phenotypes
