

# THE LANCET

## Supplementary appendix

This appendix formed part of the original submission. We post it as supplied by the authors.

Supplement to: Torres I, Sacoto F. Localising an asset-based COVID-19 response in Ecuador. *Lancet* 2020; published online April 8. [http://dx.doi.org/10.1016/S0140-6736\(20\)30851-5](http://dx.doi.org/10.1016/S0140-6736(20)30851-5).

**Number of people tested for COVID-19, confirmed cases, and deaths from COVID-19 in Ecuador between March 19 and April 3, 2020**

Date (2020)	Cumulative # of tests	Total confirmed cases	Confirmed cases Guayas	Confirmed cases Pichincha	People tested per day	Confirmed cases per day	Cumulative confirmed deaths	Confirmed deaths per day
March 19	1153	260	187	16	391	92	4	1
March 20	1670	426	318	35	517	166	7	3
March 21	2051	532	397	50	381	106	7	0
March 22	2360	789	607	60	309	257	14	7
March 23	2780	981	769	65	420	192	18	4
March 24	3618	1082	826	72	838	101	27	9
March 25	4290	1211	885	108	672	129	29	2
March 26	5090	1403	1021	121	800	192	34	5
March 27	5915	1627	1202	137	825	224	41	7
March 28	6615	1835	1345	171	700	208	48	7
March 29	6992	1924	1377	188	377	89	58	10
March 30	7451	1966	1397	191	459	42	58	0
March 31	7982	2240	1563	211	531	274	75	17
April 1	9019	2758	1941	248	1037	518	93	18
April 2	9604	3163	2243	259	585	405	120	27
April 3	10317	3368	2388	285	713	205	145	25
