

Table S1: Variables included in the Canadian Neighbourhoods and Early Child Development (CanNECD) socioeconomic status (SES) index

Education	% with no high school diploma
Language/Immigration	% not speaking either official language at home
Marital Status	% separated or divorced
Wealth	% with investment income, families with children under 6
High Income	% with incomes \geq twice than provincial median, families with children under 6
Dues	% with union/association dues, families with children under 6
Social Capital	% with charitable donations, families with children under 6
Poverty	% with low income, lone parent families with children under 6
Residential Stability	% non-migrant movers in the past year
Income Inequality	Gini Coefficient, lone female families with children under 6

**Table S2: Descriptive characteristics of neighborhoods excluded from analysis
(n=40)**

Province	Number of neighborhoods (%)
Alberta	8 (20)
New Brunswick	4 (10)
Ontario	5 (12.5)
Quebec	23 (57.5)
Median (IQR) number of children in each neighbourhood	83 (56-141)
Mean (SD) of standardized SES index	0.38 (0.88)

Table S3: Descriptive characteristics of population of children with missing Physical Health & Wellbeing (PHWB) scores (n=446)

	PHWB	SC	EM	LCD	CSGK
Sex	N (%)				
Female	123 (27.6)	138 (30.5)	166 (27.7)	154 (28.4)	128 (30.4)
