

1 **SUPPLEMENTARY TABLES**

2 **Supplementary Table 1. Variations of Serbo-Croatian author names used for Marburg virus disease literature research and found in Marburg**
3 **virus disease literature**

Search terms used	Correct Cyrillic Serbo-Croatian spelling	Correct Latin Serbo-Croatian spelling	Incorrect spelling variations found in the Marburg virus disease literature
Beric, Berić, Berich, Beritch, Берић	Берић, Б. (Б.)	Berić, B. (B.) (1)	
Bordoski, Bordjoski, Bordoshki, Bordjoshki, Bordoški, Борђошки, Борђосски	Борђошки, М. (Н.) (2)	Bordoški, M. (N.) (3, 4)	Bordjoški, M. (5)
Gligic, Gligić, Gligich, Gligitch, Глигић	Глигић, А. (С.) (2)	Gligić, A. (S.) (3-5)	
Klasnia, Klasnja, Klašnja, Klashnia, Klashnja, Клашња	Клашња, Р. (2)	Klašnja, R. (2, 6)	
Mocic, Mocić, Mocich, Mocitch, Мочић	Мочић, М. (2)	Mocić, M. (2)	Mocitch, M. (6)
Stefanovic, Stefanović, Stefanovich, Stefanovitch, Стефановић	Стефановић, Ж. (2)	Stefanović, Ž. (1, 3, 5)	Stefanovic, Z. (4)
Stoikovic, Stoikovich, Stoikovitch, Stojkovic, Stojković, Stojkovich, Stojkovitch, Стојковић, Стойкович	Стојковић, Љ. (В.) (2)	Stojković, Lj. (V.) (1, 3-5)	Stoikovic, L. V. (7)
Todorovic, Todorović, Todorovich, Todorovitch, Тодоровић	Тодоровић, К. (П.) (2)	Todorović, K. P. (2)	Todorovitch, K. (6)

5 **Supplementary Table 2. Data discrepancies between publications describing the 1967 Marburg virus disease outbreak in Yugoslavia.** Green
 6 color indicates retrospective verification of events and data.

Reference/data point	(8)	(5)	(2)	(6)	(1)	(7)
Grivet shipments from Uganda to Yugoslavia		“The first and third shipment went through London airport, while the second one came to Belgrade, only with a change of plane in München”				“2 of those 3 shipments went through London Airport, and 1 came directly to Belgrade”
Grivet shipment dates		“From July 18 till August 1...”			08/10/1967–08/25/1967	“between 18 July and 1 August”
Grivet necropsies performed by veterinarian		Necropsies on 2 and 1 deceased grivets are performed by the veterinarian on August 25 and August 30, respectively.	5	5	5	
Veterinarian identification		Ž. S.	Ж. Ст./Ž. St.	Ж. Ст./Ž. St.		
Veterinarian age			45	44		

Veterinarian disease onset	September 2	September 1	<p>“Његова садашња болест је почела по повратку из града, 1. септембра 67., са језом и дрхтавцом. Температуру није мерио а ноћ је провео мирно. Следећег јутра је температура била 38°6C без неких нарочито испљенних тегоба, а одлекова је узимао само Аписал-таблете. Пошто је целог наредног дана температура била висока — 39,6°C —...” [His present illness began on his return from the city, on September 1, 1967, with fever and chills. He did not measure temperature and spent the night calmly. The next morning, the temperature was 38.6°C in the absence of any major complains, and he only took aspirin tablets because the temperature was high the next day — 39.6°C —...]</p>	<p>“The disease began on September 1, 1967, with general weakness and raised temperature (38.6–39.6°C) without other clinical symptoms”</p> <p>vs.</p> <p>Fig. 1 in the same publication not showing fever on September 1, but instead showing the temperature values (38.6 and 39.6°C) on September 2 and 3, respectively.</p>		
----------------------------	-------------	-------------	---	---	--	--

Veterinarian leukocytopenia			<p>“Ујутру 4. септембра се температура спустила на 37°7C, али је почeo да повраћа после узимања таблета „Б-витамина”. Тог дана је у периферној крви нађено свега 2.200 леукоцита/кмм са 68% сегментираних” [On the morning of September 4, the temperature dropped to 37.7°C, but he began to vomit after taking “vitamin B” tablets. On that day, only 2,200 leukocytes/mm³ were found in peripheral blood; 68% of them segmented].</p> <p>However, there is no September 4 value in Figure 1</p>	<p>“The hematologic examinations while he was still at home showed leucopenia ($L = 2,200$ cmm with 68% polynuclear, without eosinophils” and corresponding values in Figure 1 vs.</p> <p>“On the fifth day of illness there was leuco- and thrombocytopenia ($L = 4,000, \dots 2\%$ eosinophils;...)” whereas a 4,000 value in Figure 1 only appears at around day 9 of illness</p>		
Veterinarian’s wife identification		R. S.	P. Ct./R. St.	N. St.	R. S.	
Veterinarian’s wife age			44	45	45	
Veterinarian’s wife fever on day of disease onset			37.4°C	38.6°C in the text but not showing such a value in Figure 4		

Transfusions			Veterinarian: “Конзијум је одлучио да се нашем болеснику да 250 км³ реконвалесцентне плазме од прездравелог болесника из Немачке” [The council decided to give our patient 250 cm ³ of convalescent plasma from a German patient] Veterinarian's wife: “Примена 250 км³ плазме од реконвалесцента је и њој блина од несумњиве користи” [The administration of 250 cm ³ convalescent plasma is also of great benefit to her]	“by applying plasma and blood serum of the recovered patients”		
Total number of human cases	1 male, 1 female, 0 deaths		1 male, 1 female, 0 deaths	1 male, 1 female, 0 deaths	2 female, 1 death	
Serum and coagulum sampling date for first guinea pig inoculations (veterinarian)		September 7 (day 7 of illness)	September 9 (day 9 of illness)			
Serum and coagulum sampling date for first guinea pig inoculations (wife)		September 13 (day 2 of illness)	September 14 (day 3 of illness)			

Size of virions observed by electron microscopy			“дужине око 500–800 а дебљине око 80 милимикрона” [500–800 nm in length and 80 nm thick]			“50–800 nm in length, and about 80 nm in diameter”
Titers of complement fixation antibodies in grivet sera		1:2–1:16 or more				“in a titre from 1 in 2 to 1 in 32. We were not able to interpret this”

8 **Supplementary Table 3. Key personnel involved in the investigation, management, and containment of the Marburg virus**
9 **disease outbreak in Belgrade, Yugoslavia, 1967 (1–4, 6, 9)**

Personnel [Cyrillic Serbo-Croatian spelling] (date of birth – date of death)	Personnel [Latin Serbo-Croatian spelling]	Affiliation at the time of the outbreak	Main role during the outbreaks
Берић, Берислав Б. (1927–1994)	Berić, Berislav B.	Director, MD, University Clinic for Gynecology and Obstetrics (Univerzitetska klinika za ginekologiju i akušerstvo/Универзитетска клиника за гинекологију и акушерство), Novi Sad, Yugoslavia	Unclear. Co-authored (1) together with Lj. Stojković and Ž. Stefanović, likely providing gynecological expertise in the assessment of Patient 2 (R. St.)
Борђошки, Марко Н. (1908–1982)	Bordoški, Marko N.	Head, Virology Department, Institute of Immunology and Virology “Torlak” (Institut za Imunologiju i Virusologiju «Torlak»/Институт за Имунологију и Вирусологију «Торлак»)	Charged with planning and coordinating of all activities and personal protection measures during the outbreak
Бошковић, Радосав (1920–2010)	Bošković, Radosav	Epidemiologist, Institute of Immunology and Virology “Torlak,” Belgrade, Yugoslavia	Epidemiological investigations
Ђорић, Радмила (1903–1971)	Đorić, Radmila	University Clinic of Infectious Diseases (Univerzitetska klinika za infektivne bolesti/Универзитетска клиника за инфективне болести), Belgrade, Yugoslavia	Patient medical care
Глигић, Ана С. (1934–)	Gligić, Ana S.	Head, National Laboratory for Variola and Arboviruses, Institute of Immunology and	Laboratory isolation and identification of MARV, including animal

		Virology "Torlak," Belgrade, Yugoslavia	experimentation, electron microscopy, antigen preparing, and serology
Клашња, Радмила	Klašnja, Radmila	MD, University of Belgrade School of Medicine	Patient medical care
Моцић, Мирјана (1917–2010)	Mocić, Mirjana	MD	Patient medical care
Павловић, Јован (1922–2004)	Pavlović, Jovan	MD, University Clinic of Infectious Diseases, Belgrade, Yugoslavia	Medical treatment of both patients
Стевановић, Живко (1922–1996)	Stefanović, Živko	DVM, histopathologist , Institute of Immunology and Virology "Torlak," Belgrade, Yugoslavia	Histopathology and electron-microscopic analysis of animal tissues
Стојковић, Љубинко В. (1920–1997)	Stojković, Ljubinko V.	Director, Institute of Immunology and Virology "Torlak," Belgrade, Yugoslavia	Supervisor of all activities within the Institute and coordination of and communication with international authorities; electron-microscopic exmainations
Тодоровић, Коста П. (1887–1975)	Todorović, Kosta P.	MD, Emeritus, Deputy Director, University Clinic of Infectious Diseases, Belgrade, Yugoslavia	Supervisor of patient medical care
