Title: High-quality chromosome-scale assembly of the walnut (*Juglans regia* L) reference genome

Version: Revision 1 **Date:** 3/24/2020

Reviewer name: Jean-Marc Aury

Reviewer Comments to Author:

I read the revised manuscript by Marrano et al. entitled "High-quality chromosome-scale assembly of the walnut (*Juglans regia* L) reference genome", my comments have been addressed and the authors modified the manuscript accordingly. I still have a few minor points that need to be checked before publication.

* I maintain that the comparison of the Chandler v2 assembly with that provided by Zhu et al. is an important point for the reader and I would expect to have a comparison of the two assemblies in Table 1.

* Please check how MaSurCA is written (MaSuRCA or MaSurCa)

* Table S3 : ON instead of ONT
