

58 **S15 Fig. Sea-buckthorn cover changes between 2009 and**
59 **2014 (red=disappeared, yellow=appeared, blue=remained).**
60 **The other colours represent the strata as denoted in Fig 2B**
61 **of the article. Note that the larger blue/red patches in the**
62 **far west are sea-buckthorn mixed with willow species (*Salix***
63 **sp.).**
