

Title: Supplementary Data 1:

Description: Information of 107 initial variants and empty vector.

Title: Supplementary Data 2:

Description: Reclassifications of IARC Class 1/2/4/5 BRCA2 variants by ClinVar, ACMG, and MANO-B method.

Title: Supplementary Data 3:

Description: Information of 244 variants and the empty vector.

Title: Supplementary Data 4:

Description: Raw data of 7,344 relative viability values produced by MANO-B method.

Title: Supplementary Data 5:

Description: Functional classification by MANO-B methods with four drugs.

Title: Supplementary Software:

Description: Source codes and raw data for Bayesian inference.
