Title: Supplementary Data File 1
Description: Excel sheets contained curated information for TB AMR genes and alleles.

Title: Supplementary Data File 2
Description: Dataframe for curated gene-pathway annotations.

Title: Supplementary Data File 3
Description: Excel sheets for pyrazinamide MAC characteristics.

Title: Supplementary Data File 4
Description: Excel sheets for 4-aminosalicylic acid MAC characteristics.

Title: Supplementary Data File 5
Description: Excel sheets for isoniazid MAC characteristics.

Title: Supplementary Data File 6
Description: Conventional results. Excel sheets describing bonferroni-corrected allele-AMR ANOVA F-tests and FDR-corrected pathway enrichments for isoniazid, pyrazinamide, and 4-aminosalicylic acid.
