

Reviewer Report

Title: Trans-NanoSim characterizes and simulates nanopore RNA-seq data

Version: Revision 1 **Date:** 4/22/2020

Reviewer name: Andrey D. Prjibelski, M.Sc.

Reviewer Comments to Author:

Dear Editor and Authors,

Although the original manuscript was already in a good form, the revision allowed to improve quality of the text and the software itself.

One of my suggestions was to add comparison against IsoSeqSim tool. I totally agree with the authors' comments, and thus I will not insist on adding it to the paper (although I find IsoSeqSim useful, and would be curious to see the benchmark).

Thus, I conclude that I have no further comments regarding this manuscript.

I also would like to thank authors for the useful tool, which I use in my current research.

All the best

Andrey Prjibelski
