**Table S1.** ICD codes for exposures and outcomes

Exposure variables					
	ICD 10		ICD 9		ICD 8
<b>Preeclampsia</b>					
O11	Preeclampsia superimposed on chronic hypertension	642H	Pre-eclampsia or eclampsia superimposed on pre-existing hypertension		
O14	Preeclampsia			637	Pre-eclampsia, eclampsia and toxicosis not further specified
Q14.0	Mild to moderate preeclampsia	42E	Mild or unspecified preeclampsia		
O14.1	Severe preeclampsia	642F	Severe preeclampsia		
O14.2	HELLP syndrome				
O14.9	Preeclampsia, unspecified			637,99	Toxicosis not further specified
O15	Eclampsia	642G	Eclampsia	637,10	Eclampsia
<b>Essential hypertension</b>					
I10	Essential hypertension	401	Essential hypertonia	400	Malign essential hypertension
				401,99	Benign essential hypertension
		402	Hypertension with cardiac disease	402,99	Hypertension with cardiac disease
	Hypertensive renal disease	403	Essential hypertension with chronic kidney disease	403,99	Essential hypertension with chronic kidney disease
I12		404	Hypertension with cardiac and kidney disease	404	Hypertension with cardiac and kidney disease
I15	Secondary hypertension	405	Secondary hypertension		
O10	Pre-existing hypertension complicating pregnancy, childbirth and the puerperium	642C	Other unspecified essential hypertension complicating pregnancy, childbirth, and the puerperium		
O11	Preeclampsia superimposed on chronic hypertension	642H	Pre-eclampsia or eclampsia superimposed on pre-existing hypertension		
<b>Diabetes mellitus, pregestational</b>					
E10	Type 1 diabetes mellitus	250	Diabetes mellitus		
E11	Type 2 diabetes mellitus	648A	Diabetes mellitus		
E12	Malnutrition-related diabetes mellitus				

E13	Other specified diabetes mellitus
E14	Unspecified diabetes mellitus
O24.1	Type 2 diabetes mellitus, pregestational
O24.2	Malnutrition-related diabetes mellitus, pregestational
O24.3	Unspecified diabetes mellitus, pregestational

#### **Diabetes mellitus, gestational**

O24.4	Diabetes mellitus, gestational	648W	Abnormal glucose tolerance during pregnancy
-------	--------------------------------	------	---

#### **Outcome variables**

	<b>ICD 10</b>		<b>ICD 9</b>		<b>ICD 8</b>
<b>Ischemic heart disease</b>					
I20	Angina pectoris	413	Angina pectoris	413	Angina pectoris
I21	Acute myocardial infarction	410	Acute myocardial infarction	410	Acute myocardial infarction
I22	Subsequent myocardial infarction	411	Other acute and subacute forms of ischemic heart disease	411	Other acute and subacute forms of ischaemic heart disease
I23	Certain current complications following acute myocardial infarction	412	Old myocardial infarction	412,91	Old myocardial infarction, with no information of hypertension
I24	Other acute ischaemic heart diseases	414W	Other chronic ischemic heart disease, specified	414,00	Asymptomatic ischaemic heart disease, with hypertension
I25	Chronic ischaemic heart disease	414X	Chronic ischemic heart disease, unspecified	414,99	Asymptomatic ischaemic heart disease, with no information of hypertension
	414A	Coronary arteriosclerosis of native coronary artery			

#### **Heart failure**

I11.0	Hypertensive heart disease with (congestive) heart failure
I13.0	Hypertensive heart and renal disease with (congestive) heart failure

I13.2	Hypertensive heart and renal disease with both (congestive) heart failure and renal failure				
I50	Heart failure	428	Congestive heart failure, unspecified	428.99	Heart failure, unspecified
<b>Cerebrovascular disease</b>					
I60.0-7	Subarachnoid haemorrhage	430	Subarachnoid haemorrhage	430	Subarachnoid haemorrhage
I61	Intracerebral haemorrhage	431	Intracerebral haemorrhage	431	Intracerebral haemorrhage
I62	Other nontraumatic intracranial haemorrhage	432	Other and unspecified intracranial haemorrhage	433	Cerebral thrombosis
I63	Cerebral infarction	434	Occlusion of cerebral arteries	434	Cerebral embolism
I64	Stroke, not specified as haemorrhage or infarction	436	Acute cerebrovascular disease, incompletely defined	436	Acute, cerebrovascular disease, not further defined
I65	Occlusion and stenosis of precerebral arteries, not resulting in cerebral infarction	433	Occlusion and stenosis of precerebral arteries	432	Occlusion of precerebral arteries
I66	Occlusion and stenosis of cerebral arteries, not resulting in cerebral infarction	437B	Other generalised ischaemic cerebrovascular disease	437	Generalised ischaemic cerebrovascular disease
I67.2	Cerebral arteriosclerosis	437A	Cerebral arterioerosclerosis		
I69	Sequelae of cerebrovascular disease	438	Later effects by cerebrovascular disease	438	Cerebrovascular disease, not further defined
G45	Transient cerebral ischaemic attacks and related syndromes	435	Transient cerebral ischemia	435	Transient cerebral ischaemia

**Table S2.** Maternal and pregnancy characteristics according to singleton pregnancy without and with preeclampsia or multi-fetal pregnancy without and with preeclampsia in first deliveries in the restricted population of 186 775 births **1995-2010**
