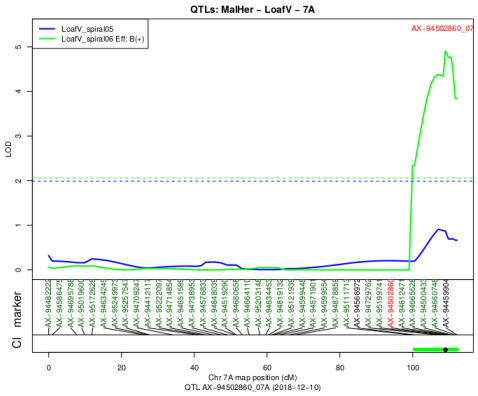
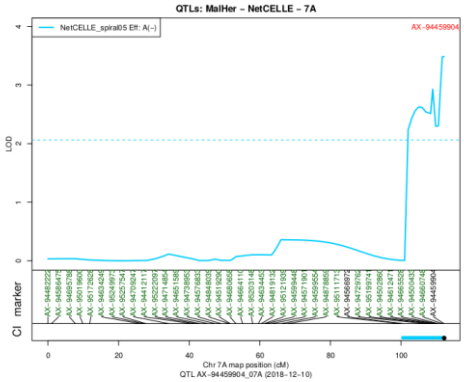
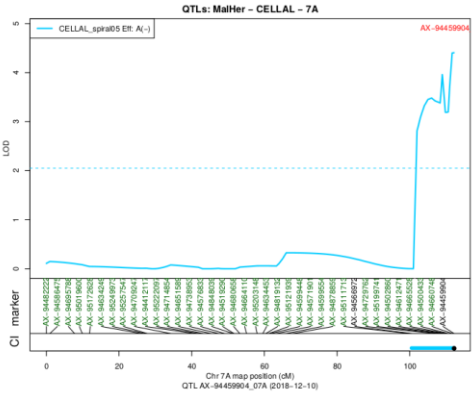
**Figure S2.** Malacca x Hereward 7A QTL plots.






Traits: LoafV , loaf volume; CELLAL , Cell alignment; NetCELLE , Net Cell elongation. Horizontal axis represents genetic linkage map of 7A short arm on left, long arm on right. Dotted horizontal line shows LOD significance threshold. Horizontal bar with circle shows 1 LOD confidence interval with the circle representing QTL peak marker. QTL peak markers shown above peak in red text.
