

SUPPLEMENTARY FIGURE

Supplementary Figure 1. The chemical structure of NBP and the experimental design. (A) The chemical structure of NBP; (B) The schematic diagram of experimental design. ICH: intracerebral hemorrhage; BID: twice-daily; i.p.: intraperitoneal; NBP: butylphthalide; MMP-9: matrix metalloproteinase-9; TNF- α : tumor necrosis factor-alpha; BBB: blood-brain barrier; MRI: magnetic resonance imaging.
