

## Online Supplement 2: Search Strategy

MEDLINE, CINAHL, Scopus, Web of Science, EMBASE, IEEE Digital Library, and the Cochrane Library will be searched for eligible studies, while ACM Digital Library, ProQuest Dissertations, Open Grey, and the National Information Center's Health Services Research Projects in Progress Database will be searched to identify additional grey literature. Searches to these databases will adhere to the general following structure: (gait terms) AND (disease-area terms).

The following search string was developed for EMBASE by an experienced information specialist in consultation with the research team and will be replicated for other included databases. Results reflect a search on November 14<sup>th</sup>, 2019.
