Sunwha Park, et al. CVF cytokine for prediction of PTB

**Supplementary Table 2.** Receiver operating characteristic curve analysis in preterm labor patients

Cytokine	AUC	95% CI	P-value	Cut-off	Sensitivity	Specificity
IL-6	0.794	0.610–0.978	0.036	31.25	83	76
IL-7	0.779	0.543–1.000	0.046	0.98	83	64
fFN	0.672	0.425–0.918	0.220	49.50	33	70

AUC, area under a receiver operating characteristic curve; CI, confidence interval; IL, interleukin; fFN, fetal fibronectin.
