

Supplementary Figure 9

Down-regulated genes
in progression of ceritinib

Number of nodes = 82
Number of edges = 165
Edges/nodes ratio = 2.01
Clustering coefficient = 0.122
Average number of neighbors = 4.024

Node Size Mapping

Up-regulated genes
in progression of ceritinib

Number of nodes = 48
Number of edges = 258
Edges/nodes ratio = 5.37
Clustering coefficient = 0.305
Average number of neighbors = 10.75

Node Fill Color Mapping
