

Figure S1. Effects of administration of Ang II on (A) heart weight/body weight and (B) LV weight/body weight in wild-type and *Ahr*^{-/-} mice treated with low- or high-dose of Ang II. Effects of administration of Ang II and fenofibrate on (C) heart weight/body weight and (D) LV weight/body weight in wild-type and *Ahr*^{-/-} mice treated with Ang II (at 100 ng/kg/min) and fenofibrate. Data are mean \pm SEM of eight mice per group. * P <0.05 vs. wild-type control mice; # P <0.05 vs. wild-type Ang II mice.
