

Figure S3: **Total and outer retinal thickness topography of eyes from three rabbits.** Rabbit 14 (A, B), rabbit 15 (C, D), rabbit 16 (E, F). (A, C, E) outer retinal (OR) thickness topography projected onto the OCT volume intensity projection image. (B, D, F) total retinal thickness (TRT) topography projected onto the OCT volume intensity projection image. False color scales are used to indicate OR thickness and TRT in μm .
