Lanes used to
compile Figure 2B

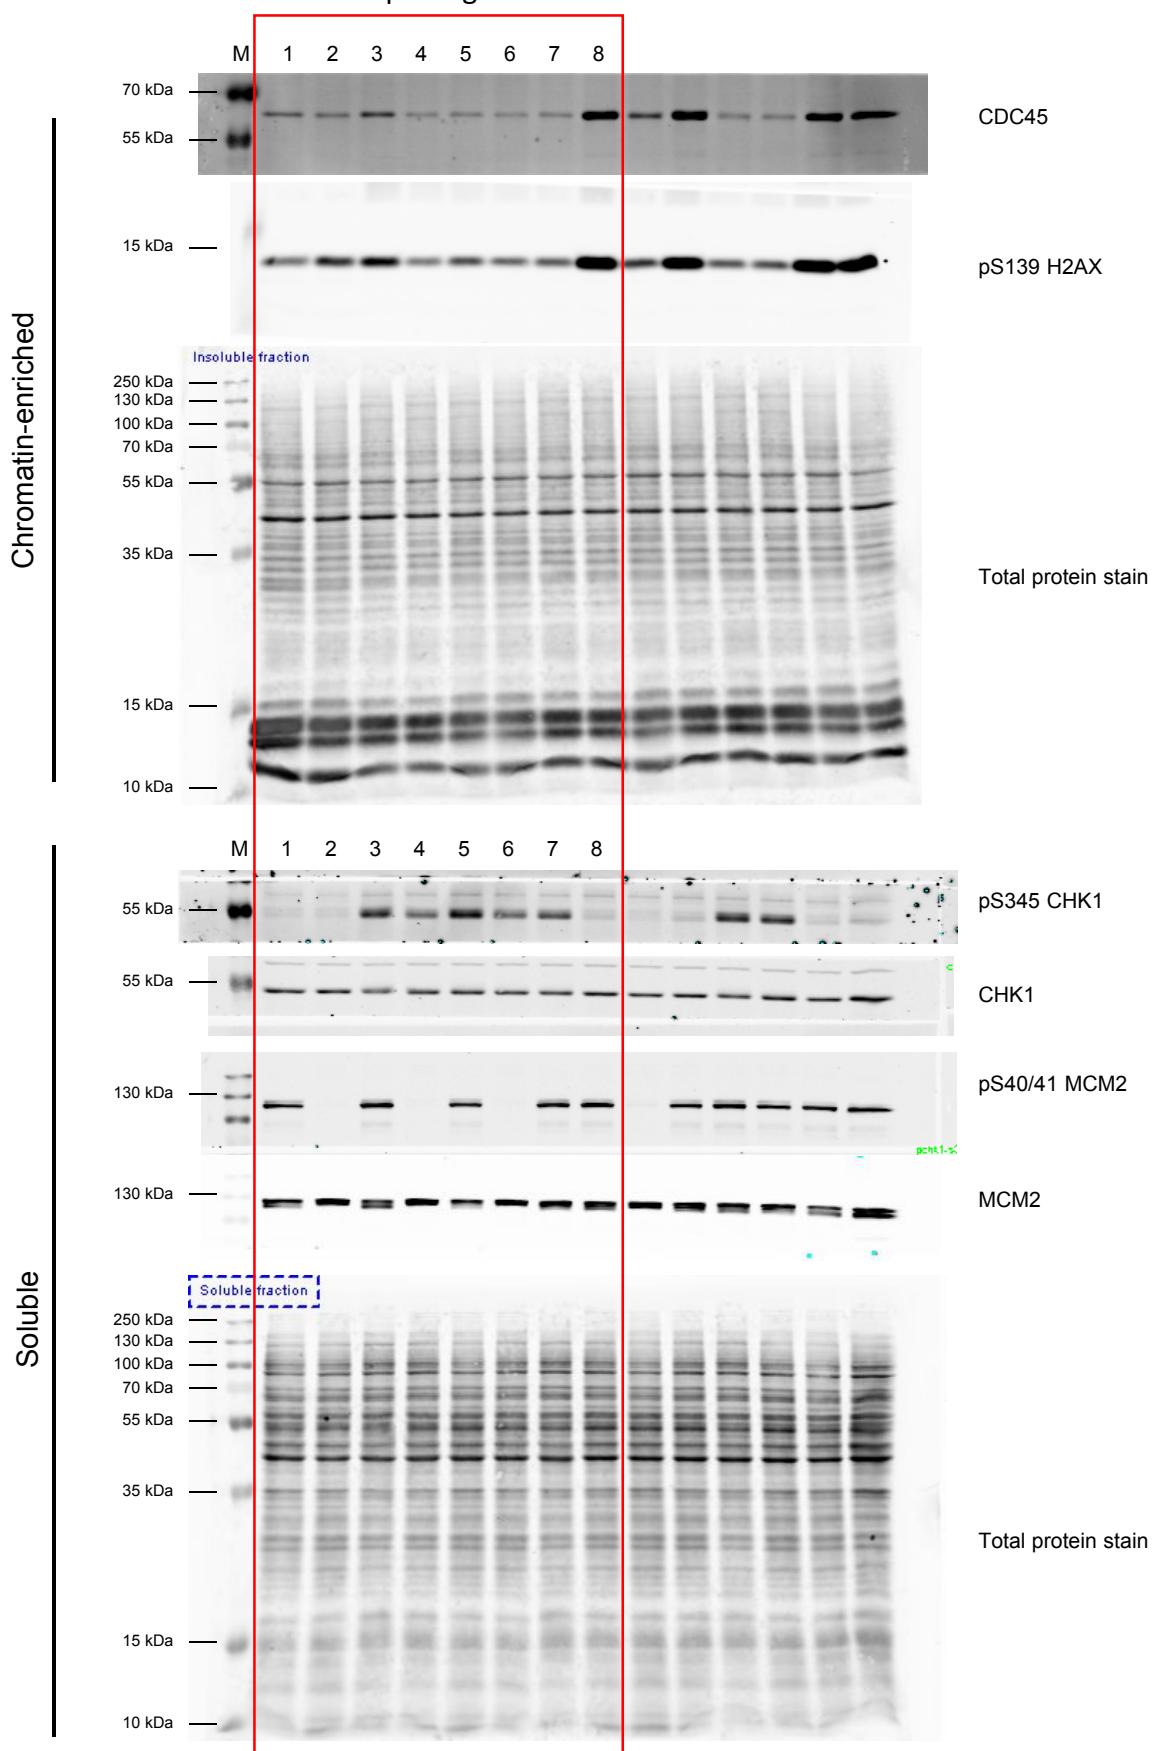

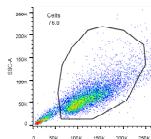

Figure 2C, 2D and Appendix Figure S1 (Related to Figure2)

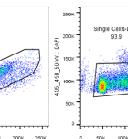

Source data

Analysis after exclusion of debris and doublets

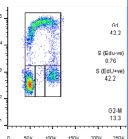

Exclusion of debris

Exclusion of doublets

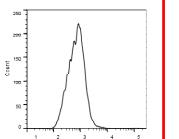

Biparametric analysis DAPI/Edu

Coloured representation of cell cycle phases from previous dot plot

γ H2AX intensity Histograms

Overlay of γ H2AX intensity histograms Untreated Vs.Treated

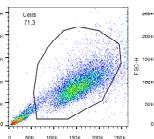

Untreated 24h

XL413 24h

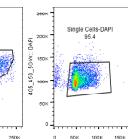

HU 24h

XL413 + HU 24h

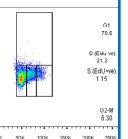

Exclusion of debris

Exclusion of doublets

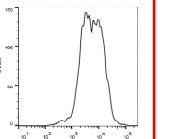

Biparametric analysis DAPI/Edu

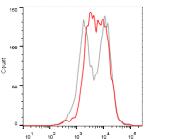

Coloured representation of cell cycle phases from previous dot plot

γ H2AX intensity Histograms

Overlay of γ H2AX Intensity histograms XL413+HU 24h Vs.Treated

Biparametric analysis used for Appendix Figure S1

Histograms used for Figure 2C

Biparametric analysis used for Appendix Figure S1

Histograms used for Figure 2D
