

Table S1. Description of ADHD measures within the groups defined by the short-term therapy outcome (n=136).

| ADHD screening (+); n - % | | | | | |
|----------------------------|---|-------|--|-------|----------|
| Risk for dropout | <i>Completers</i> (n=72) | | <i>Dropout</i> (n=64) | | <i>p</i> |
| Anorexia (n=31) | 1 | 5.0% | 2 | 18.2% | .235 |
| Bulimia (n=59) | 17 | 51.5% | 12 | 46.2% | .683 |
| OSFED (n=26) | 4 | 50.0% | 5 | 27.8% | .272 |
| BED (n=20) | 3 | 27.3% | 2 | 22.2% | .795 |
| Short term therapy outcome | <i>Full/partial remission</i> (n=56) | | <i>Dropout/non-remission</i> (n=80) | | <i>p</i> |
| Anorexia (n=31) | 1 | 6.7% | 2 | 12.5% | .583 |
| Bulimia (n=59) | 15 | 57.7% | 14 | 42.4% | .244 |
| OSFED (n=26) | 2 | 50.0% | 7 | 31.8% | .482 |
| BED (n=20) | 3 | 27.3% | 2 | 22.2% | .795 |

Note. OSFED: other specified feeding eating disorder. BED: binge eating disorder

Table S2. Description of ADHD measures within the groups defined by the short term therapy outcomes (n=136) and the follow-up (n=123).

| | Treatment outcome | | | | | Short-term therapy outcome | | | | | Outcome at follow-up | | | | |
|-----------------------------|---------------------------------|-------|------------------------------|-------|------|-----------------------------------|-------|-----------------------------------|-------|------|----------------------|-------|-----------------------|-------|------|
| | Completers treatment n=72 | | Dropout treatment n=64 | | p | Full/partial remission n=56 | | Dropout/non- remission n=80 | | p | Remission n=87 | | Non-remission n=36 | | p |
