

**Supplementary Table S1** Demographic characteristics of survey respondents

Demographics	Respondents (n = 36) n (%)
<b>Age (y)</b>	
25–34	21 (58.3)
35–44	8 (22.2)
45–54	4 (11.1)
55–64	3 (8.3)
<b>Gender</b>	
Female	32 (88.9)
Male	4 (11.1)
<b>Ethnicity</b>	
Hispanic or Latino	4 (11.1)
Non-Hispanic or Latino	29 (80.6)
Unknown not reported	3 (8.3)
<b>Race</b>	
Asian	9 (25.0)
Black or African American	2 (5.5)
White	24 (66.7)
Unknown/not reported	1 (2.8)
<b>Role</b>	
Medical doctor	30 (83.3)
Registered nurse/nurse practitioner	2 (5.5)
Other <sup>a</sup>	4 (11.1)
<b>Level of training</b>	
Resident	10 (27.8)
Fellow	2 (5.5)
Attending	18 (50.0)
N/A	6 (16.7)
<b>Years of practice<sup>b</sup></b>	
<1	4 (11.1)
1 and 2	2 (5.5)
3 and 4	7 (19.4)
5 and 10	10 (27.8)
10 and 20	9 (25.0)
> 20	4 (11.1)
<b>Nature of your obstetrics practice</b>	
General practice	16 (44.4)
Maternal fetal medicine	9 (25.0)
Residency	10 (27.8)
N/A	1 (2.8)
<b>Location of your obstetrics practice</b>	
Private practice	6 (16.7)
Health clinic	6 (16.7)
Both	20 (55.6)
N/A	4 (11.1)

(Continued)

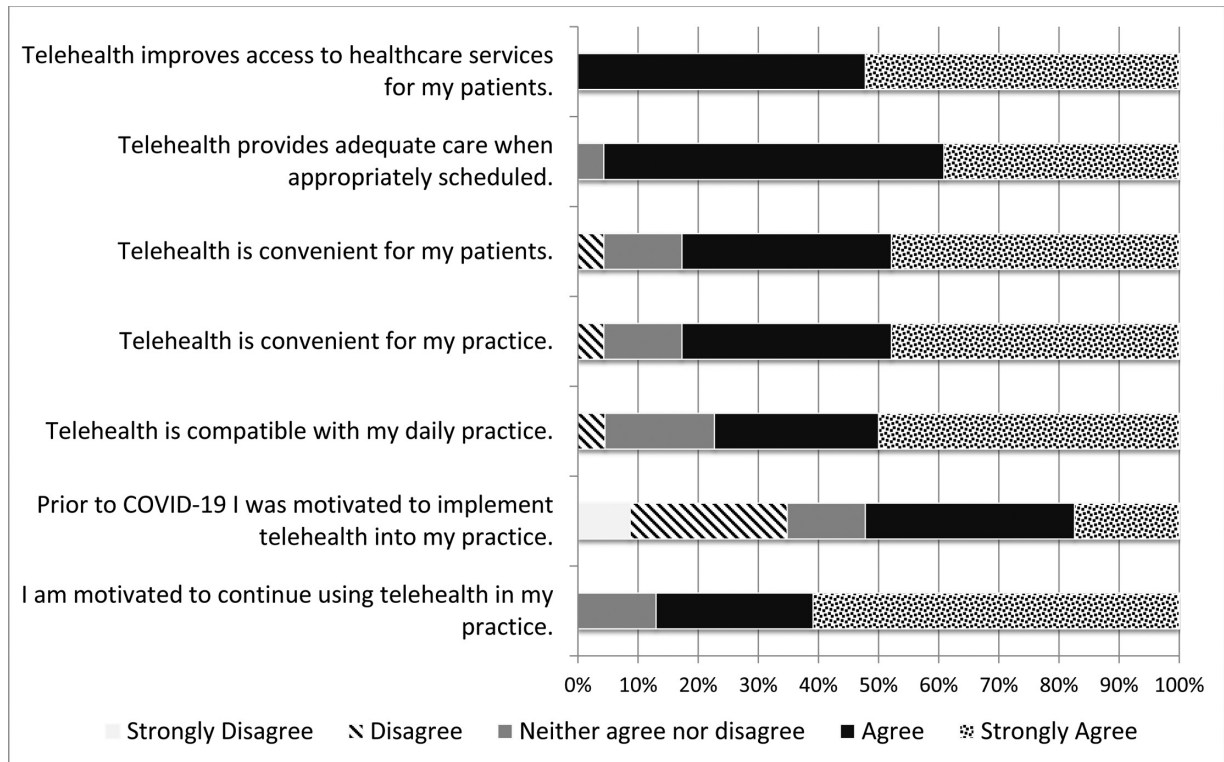

**Supplementary Table S1** (Continued)

Demographics	Respondents (n = 36) n (%)
<b>Most common third party payer in the practice</b>	
Private insurance	9 (25.0)
Medicaid	24 (66.7)
Self-pay	0 (0.0)
Unsure	2 (5.5)
N/A	1 (2.8)
<b>Telehealth use prior to the COVID-19 pandemic</b>	
Yes	9 (25.0)
No	27 (75.0)

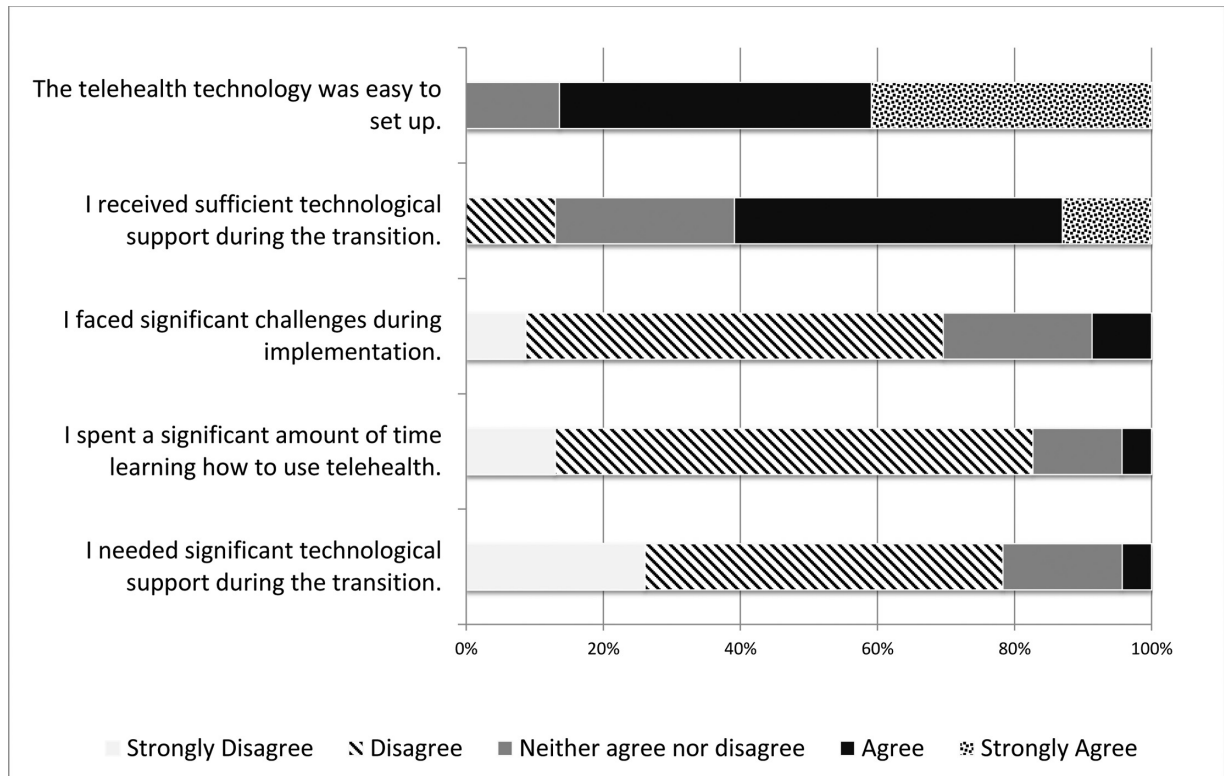

Abbreviations: COVID-19, novel coronavirus disease 2019; N/A, not applicable.

<sup>a</sup>Genetic counselor, certified nurse midwife, nutritionist.

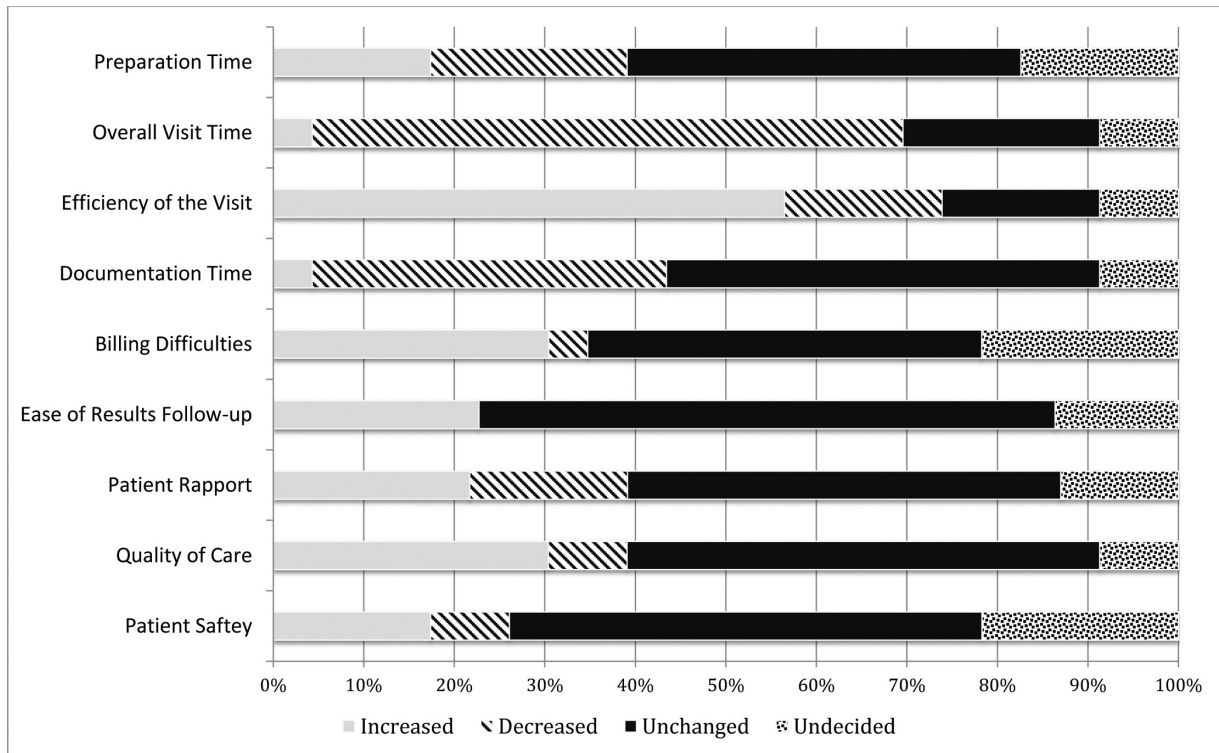

<sup>b</sup>Including postgraduate training for physicians.

**Supplementary Figure 1.** Health clinic practitioner attitudes and beliefs towards telehealth. The figure demonstrates provider degree of agreement with seven survey statements designed to evaluate attitudes and beliefs to towards the use of telehealth in clinical practice on a 5-point Likert scale.

**Supplementary Figure 2.** Health clinic practitioner experience with telehealth implementation. The figure demonstrates provider degree of agreement with five survey statements designed to evaluate practitioner experience with the telehealth implementation process on a 5-point Likert scale.

**Supplementary Figure 3.** Health clinic provider perceptions of characteristics of telehealth compared to in-person visits. This figure demonstrates provider perceptions about how telehealth has changed various visit metrics as compared to in-person visits.
