

**Do  
CHANGE**

# Do Cardiac Health: Advanced New Generation Ecosystem

February 2015- April 2018

- Self-management programme for people with cardiac diseases to change their habits and learn to enjoy a healthier lifestyle;
- Personalisation based on the person's habits, personality and real-time information from different sensors and existing medical devices;
- Person controlled data storage and access on nutrition, activity, hydration, health, behaviour and habits.

**Do CHANGE for a better and healthier lifestyle!**
