

Appendix 2 (as supplied by the authors)

Sources of data on cannabis consumption in Canada

Year	Survey	Sampling Method	Questions Used	Response Rate* (%)	Missing Data (%)
2004	CTUMS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”	87.6	2.5
2005	CTUMS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”	84.1	2.2
2006	CTUMS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”	86.5	2.1
2007	CTUMS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”	86.5	2.1
2008	CTUMS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”	86.3	2.1
2008	CADUMS	Two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”; “Have you been pregnant in the past 12 months?”	43.5	0.4; 0.06
2009	CTUMS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”	85.1	1.9
2009	CADUMS	Two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”; “Have you been pregnant in the past 12 months?”	44.7	0.4; 0.1
2010	CTUMS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”	84.2	1.9
2010	CADUMS	Two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”; “Have you been pregnant in the past 12 months?”	42.8	0.4; 0.3

2011	CADUMS	Two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?” “Have you been pregnant in the past 5 years?”	42.8	0.1
2011	CTUMS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”	83.9	2
2012	CADUMS	Two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?” “Have you been pregnant in the past 5 years?”	39.8	0.4
2012	CTUMS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“Have you used it (i.e. marijuana) in the past 12 months?”	83	1.8
2013	CTADS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“During the past 12 months have you used marijuana?”	81.8	0.9
2015	CTADS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“During the past 12 months have you used marijuana?”	79	1.1
2017	CTADS	Cross-sectional; two-phase stratified random sample; computer-assisted random-dialed telephone interviews	“During the past 12 months have you used marijuana?”	70.4	1.4

Notes: All surveys covered all Canadian provinces but excluded residents of the Canadian Territories and institutionalized populations.

*Total response rate for the survey

CTUMS: Canadian Tobacco Use Monitoring Survey; CADUMS: Canadian Alcohol and Drug Use Monitoring Survey; CTADS: Canadian Tobacco, Alcohol and Drugs Survey
