Title: Supplementary Data 1
Description: This table contains a detailed list of constructs used in this study and the respective sequence information.

Title: Supplementary Data 2
Description: This table contains the exact p values reported in this study.

Title: Supplementary Data 3
Description: This table contains the DNA sequences of oligonucleotides used in this study. Sequences are presented from the 5' end to the 3' end.

Title: Supplementary Data 4
Description: This folder contains the bngl file defining the mathematical model shown in Supplementary Fig. 3 along with the m-file used to solve it.
