

Table S1: Outcome of PAP adherence at one month (≥ 4 h PAP use for $\geq 70\%$ of days) divided by racial subgroup

Race	Population (n=2571)	Unadjusted Odds Ratio [95% CI]	Unadjusted P-value
White	57%	Ref.	Ref.
Black	25%	0.66 [0.55 - 0.79]	<0.001
Asian	6%	1.15 [0.82 – 1.62]	0.41
Hawaiian/Pacific Islander	2%	0.95 [0.53 – 1.70]	0.87
American Indian	2%	1.16 [0.62 – 2.21]	0.64

PAP = Positive airway pressure; OR = odds ratio

OR represents the change in odds of 30-day PAP adherence if the variable were true.
