eTable. Patient Outcomes

This supplementary material has been provided by the authors to give readers additional information about their work.

eTable 1. Patient Outcomes

Outcome	Description
Return to duty	No restrictions
Restricted duty	Restricted from performing certain duties or activities due to an illness or injury
Quarters	Excusal from duty for a period of more than 24 hours to a maximum of 14 days due to an illness or injury that did not require hospitalization
Medical redeployment	Redeployment to home station due to illness or injury
Redeployment in less than 1 month	Service member was already scheduled to redeploy to home station so medical redeployment was not recommended and the patient followed up as recommended when returned to home station
Admission	Admission to a hospital for observation
Surgery	Admission to a hospital for a surgical procedure
