

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-5464	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The HbA1c and OGTT data in particular will be shared as well as the clinical characteristics of pregnant individuals of gestational diabetes mellitus (GDM) and non-GDM groups.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study design, statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Anyone who is interested in studies of GDM.
8	For what type of analysis or purpose?	For analysis to evaluate the diagnostic accuracy of HbA1c in detecting GDM.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: microphage @163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
